

Appendix D - Objectives and Actions for Land Use

- **Timeframe** – The timeframe from adoption of the CCMP in which the action should be completed. Short (S) indicates a completion within 1-2 years, Medium (M) actions are completed within 3-5 years, and Long (L) actions take 5 or more years. On-going actions are considered Long.
- **Costs** – The anticipated costs of action components: \$ < \$100,000, \$\$ \$100,000 - \$500,000, \$\$\$ \$500,000 - \$1,000,000, \$\$\$\$ > \$1,000,000.

<i>Goal - To improve and sustain collaborative regional approaches to responsible land use planning and open space protection in the watershed that protect and improve water quality, water supply, living resources, soil function and hydrology.</i>					
LU Objective	LU Action ID	CCMP Action	Partners, Leads, and Identified Appropriate Funding Sources	Time-frame	Cost?
1. Promote and support open space acquisition, planning and management for people and nature.					
	LU 1-1	<p>Convene intergovernmental working group to review all existing public and private planning documents (such as Green Acres Inventory, County and Municipal Open Space Inventories, TPL 2020 Plan, municipal master plans, CIPs, and All Hazard Mitigation Plans, Conservation Blue Print initiative) and holdings, in order to coordinate future efforts to maximize ecological services of preserved lands.</p> <p>METRICS: Convene workgroup</p> <p>Milestone:</p> <p>1-1a Identify participants, invite and convene working group to format inventory by 2019</p>	<p>Partners: Counties, Municipalities, NJDEP, USFWS, Land Conservancies, BBP, JC NERR, TPL, Pinelands</p> <p>Lead(s): TBD</p> <p>Funding Sources: NJDEP, County NLT funds, DEP State Revolving Funds, EIT; Other TBD.</p>	1-1a S	\$
